

I would like to take this opportunity to reassure some of our customers about some of the measures we have taken during AND BEYOND the current corona virus pandemic.

We are available for any advice or enquires our customers may have.

We have now implemented safety measures for both ourselves and you the customer.

For initial consultations we are happy to speak to you over the phone or even Skype.

If you are able to send us pictures and/or rough measurements of your project we should be able to provide ideas and costing for your project.

Of course we will still also be happy to meet you at your property whilst maintaining social distancing.

While work is being carried out we will be keeping contact to an absolute minimum and maintain the 2 meter social distancing rule for the foreseeable future .

We will not be expecting any tea coffee or refreshments.

We will not have any need whatsoever to enter your Home.

We will not expect to use any of your toilet facility's and will make our own provisions.

We hope to be able to offer our services for many years to come as we have been for the past 20 odd years.

The only thing that will make this possible is you the customer.

We hope to hear from you soon and rest assured that when you are ready to re visit your groundwork's project we will be ready to carry out the works as we always have been.
